INDEPENDENT AUDITORS' REPORT

City Council
City of Hallsville, Texas

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of City of Hallsville, Texas, as of and for the year ended September 30, 2016, and the related notes to the financial statements, which collectively comprise City of Hallsville, Texas' basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of City of Hallsville, Texas, as of September 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 5 through 9, Schedule of Changes in Net Pension Liability and Related Ratios, and Schedule of Contributions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise City of Hallsville, Texas' basic financial statements. The supplemental schedule is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplemental schedule is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental schedule is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 7, 2017, on our consideration of City of Hallsville, Texas' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Hallsville, Texas' internal control over financial reporting and compliance.

Respectfully submitted,

KNUCKOLS, DUVALL, HALLUM & CO.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

City Council
City of Hallsville, Texas

We have audited in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, and each major fund of City of Hallsville, Texas, as of and for the year ended September 30, 2016, and the related notes to the financial statements, which collectively comprise City of Hallsville, Texas' basic financial statements, and have issued our report thereon dated February 7, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered City of Hallsville, Texas' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of Hallsville, Texas' internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Hallsville, Texas' internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether City of Hallsville, Texas' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully submitted,

KNUCKOLS, DUVALL, HALLUM & CO.

CITY OF HALLSVILLE, TEXAS

MANAGEMENT'S DISCUSSION AND ANALYSIS YEAR ENDED SEPTEMBER 30, 2016

In this section of the Annual Financial and Compliance Report, we, the managers of the City of Hallsville, Texas (City), discuss and analyze the City's financial performance for the year ended September 30, 2016. Please read it in conjunction with the Independent Auditors' Report on page 1, and the City's Basic Financial Statements, which begin on page 10.

USING THIS REPORT

This report consists of a series of financial statements. The government-wide financial statements include the Statement of Net Position and the Statement of Activities (on pages 10 and 11). These provide information about the activities of the City as a whole and present a longer-term view of the City's property and debt obligations and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

Fund financial statements report the City's operations in more detail than the government-wide statements by providing information about the City's most significant funds. For governmental activities, these statements tell how services were financed in the short term as well as what resources remain for future spending. They reflect the flow of current financial resources. For proprietary activities, fund financial statements tell how services of the City were sold to external customers and how the sales revenues covered the expenses of the services.

The notes to the financial statements provide narrative explanations or additional data needed for full disclosure in the government-wide statements or the fund financial statements.

REPORTING THE CITY AS A WHOLE

The Statement of Net Position and the Statement of Activities

The analysis of the City's overall financial condition and operations begin on page 10. Its primary purpose is to show whether the City is better off or worse off as a result of the year's activities. The Statement of Net Position includes all of the City's assets and liabilities at the end of the year while the Statement of Activities includes all the revenues and expenses generated by the City's operations during the year. These apply the accrual basis of accounting, which is the basis used by private sector companies.

All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. The City's revenues are divided into those provided by outside parties who share the costs of some programs and revenues provided by taxpayers (property, sales, and franchise tax revenue). All of the City's assets are reported whether they serve the current year or future years. Liabilities are considered regardless of whether they must be paid in the current or future years.

These two statements report the City's net position and changes in them. The City's net position (the difference between assets and liabilities) provide one measure of the City's financial health, or financial position. Over time, increases or decreases in the City's net position are one indicator of whether its financial health is improving or deteriorating.

CITY OF HALLSVILLE, TEXAS

MANAGEMENT'S DISCUSSION AND ANALYSIS YEAR ENDED SEPTEMBER 30, 2016

In the Statement of Net Position, the City has two types of activities:

Governmental activities – Most of the City's basic services are reported here, including administrative, police, volunteer fire department, and parks. Property taxes, sales taxes, franchise fees, sanitation fees, and fines finance most of these activities.

Business-type activities – The City charges a fee to "customers" to help it cover all or most of the cost of certain services it provides. The City's water and sewer activities are reported here.

REPORTING THE CITY'S MOST SIGNIFICANT FUNDS

Fund Financial Statements

The fund financial statements begin on page 12 and provide detailed information about the most significant funds – not the City as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories-governmental funds and proprietary funds.

Governmental funds – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current sources and uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains two governmental funds. Information is presented separately in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balance for the General Fund and the Debt Service Fund, both of which are considered to be major funds.

Proprietary Funds – The City maintains one type of proprietary fund, which is the enterprise fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses an enterprise fund to account for the water and sewer activities.

CITY OF HALLSVILLE, TEXAS

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED SEPTEMBER 30, 2016

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Water and Sewer Fund, which is considered to be a major fund.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indication of a government's financial position. In the case of the City of Hallsville, assets exceeded liabilities by \$6,171,018 as of September 30, 2016. Approximately 26% of the City's net position is unrestricted.

As of September 30, 2016, the City is able to report positive balances in all three categories of net position for the government as a whole.

Governmental Activities - The City's general revenues increased approximately 4% for the year, while general government and public service and safety expenses increased about 16%. Fees, fines, and charges for services increased approximately 3% this year. Operating grants and contributions increased over 100% this year. This was due to the Police Department receiving a grant for law enforcement equipment. Property tax revenue increased 9%, which was due to the fact that the City's property tax assessed values increased 8% from last year.

Business-Type Activities - Business-type activities net position decreased by \$119,674 or approximately 3%.

CITY OF HALLSVILLE, TEXAS

MANAGEMENT'S DISCUSSION AND ANALYSIS **YEAR ENDED SEPTEMBER 30, 2016**

CITY'S FUNDS

As the City completed the year, its governmental funds (as presented in the balance sheet on page 12) reported a combined fund balance of \$989,606, which is a decrease over last year's total of \$1,038,381. Included in this year's change in fund balance is a decrease of \$49,507 in the General Fund. This decrease was mainly due to a decrease in the General Fund for street repairs and improvements.

At the end of the year, unrestricted net position for the enterprise fund was \$796,015. Net position for the Water and Sewer Fund decreased \$119,674 for the year. Other factors concerning the finances of these funds have already been addressed in the discussion of the City's business-type activities.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of 2016, the City had \$15,294,960 invested in a broad range of capital assets. This amount represents a net increase of approximately 10% above last year.

This year's major additions included:

| | |
|---|------------------|
| Construction in Progress - Water and Sewer | 563,417 |
| Police and General Fund - Building Improvements | 33,309 |
| Police and Other General Fund Equipment | 33,206 |
| Street Improvements | 285,336 |
| Water and Sewer System Equipment | 68,748 |
| Water and Sewer System Improvements | <u>380,414</u> |
| Total | <u>1,364,430</u> |

Long-Term Debt

At year-end, the City had \$7,060,000 in bonds outstanding versus \$7,335,000 last year - a decrease of \$275,000 or 4%. The General Obligation Bonds are secured by the City's limited ad valorem tax levy.

Also, at year-end, the City had \$328,486 of loans payable outstanding versus \$115,751 from last year - an increase of \$212,735. The City took out a loan for \$249,936 to pay for street improvements and repairs this year.

ECONOMIC FACTORS AND NEXT YEAR'S RATES

The City's elected officials and administration considered many factors when approving the property tax rate of \$.399737 in September 2016, which consists of \$.160000 for the General Fund and \$.239737 for the Debt Service Fund.

CONTACTING CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the City's office at 115 W. Main, Hallsville, Texas.

***RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO
STATEMENT OF NET POSITION
SEPTEMBER 30, 2016***

| | |
|--|------------------|
| Total Fund Balances - Total Governmental Funds | 989,606 |
| Amounts reported for governmental activities in the statement of net position are different because: | |
| Capital assets (net of accumulated depreciation) used in governmental activities are not current financial resources and therefore are not reported in the governmental funds balance sheet. | 2,476,299 |
| Long-term liabilities are not due and payable in the current period, and therefore, they are not reported in the governmental fund balance sheet. | (1,624,736) |
| Interest payable on long-term debt does not require current financial resources. Therefore, interest payable is not reported as a liability in the governmental fund balance sheet. | (3,661) |
| Assets not available to pay for current period expenditures are deferred in the governmental fund balance sheet. | 15,998 |
| Included in the items related to debt is the recognition of the City's proportionate share of the net pension liability required by GASB 68 in the amount of \$188,057, a Deferred Resource Inflow related to TRS in the amount of \$1,733 and a Deferred Resource Outflow related to TRS in the amount of \$26,723. This amounted to a decrease in Net Position in the amount of \$163,067. | <u>(163,067)</u> |
| Net Position of Governmental Activities | <u>1,690,439</u> |

CITY OF HALLSVILLE, TEXAS

***RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND
CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE
STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED SEPTEMBER 30, 2016***

| | |
|--|--------------|
| Net Change in Fund Balances - Total Governmental Funds | (48,775) |
| Amounts reported for governmental activities in the statement of activities are different because: | |
| Governmental funds report capital outlay as expenditures. However, in the government-wide statement of activities and changes in net position, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the net amount of capital assets purchased and sold in the current period. | 351,851 |
| Depreciation expense on capital assets is reported in the government-wide statement of activities and changes in net position, but they do not require the use of current financial resources. Therefore, depreciation expense is not reported as an expenditure in the governmental fund. | (155,595) |
| The issuance of long-term debt provides current financial resources to governmental funds; while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds, however, this has no effect on net position. | (115,135) |
| Accrued interest expense on long-term debt is reported in the government-wide statement of activities and changes in net position, but does not require the use of current financial resources. | (15) |
| Some property tax will not be collected for several months after the City's fiscal year end. These are not considered "available" revenues in the governmental fund until received. | 1,193 |
| The implementation of GASB 68 required that certain expenditures be de-expended and recorded as deferred resource outflows. These contributions made after the measurement date of 12/31/15 caused the change in the ending net position to decrease in the amount of \$15,835. The City recorded their proportionate share of the pension expense during the measurement period as part of the net pension liability. The amounts expensed for FY2016 were \$20,364 for pension expense and the amounts de-expended for the net deferred resource inflow and outflow recognized by TRS in the measurement period were a positive \$4,168. This caused a net decrease in the change in net position of \$16,196. The impact of all of these is to decrease the change in net position by \$32,031. | (32,031) |
| Changes in Net Position of Governmental Activities | <u>1,493</u> |

CITY OF HALLSVILLE, TEXAS

NOTES TO THE FINANCIAL STATEMENTS ***SEPTEMBER 30, 2016***

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES:

The City of Hallsville is an incorporated municipality. The City operates under an alderman-mayor form of government and provides the following services authorized by its charter: public safety, public improvements, highway and streets, and water and sewer.

The accounting and reporting policies of the City relating to the funds included in the accompanying basic financial statements conform to accounting practices generally accepted in the United States of America applicable to state and local governments. Generally accepted accounting principles for local governments include those principles prescribed by the Governmental Accounting Standards Board (GASB), the American Institute of Certified Public Accountants in the publication entitled *Audits of State and Local Governmental Units* and by the Financial Accounting Standards Board (when applicable). As allowed in Section P80 of GASB's *Codification of Governmental Accounting and Financial Reporting Standards*, the City has elected not to apply Financial Accounting Standards Board Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins of the Committee of Accounting Procedure issued after November 30, 1989.

Pensions. The fiduciary net position of the Texas Municipal Retirement System (TMRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TMRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

As of September 30, 2016, the City prospectively applied Governmental Accounting Standards Board ("GASB") Statement No. 72, Fair Value Measurement and Application. GASB Statement No. 72 provides guidance for determining a fair value measurement for reporting purposes and applying fair value to certain investments and disclosures related to all fair value measurements.

Other more significant accounting and reporting policies and practices used by the City are described below.

Basis of Presentation:

The government-wide financial statements (the statement of net position and the statement of changes in net position) report information on all of the activities of the City. The effect of interfund activity, within the governmental and business-type activities columns, has been removed from these statements. Governmental activities, which normally are supported by taxes, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given program and 2) operating or capital grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes and other items not properly included among program revenues are reported instead as general revenues.

CITY OF HALLSVILLE, TEXAS

NOTES TO THE FINANCIAL STATEMENTS **SEPTEMBER 30, 2016**

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES: *(Continued)*

Fund Financial Statements:

The City segregates transactions related to certain functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Separate statements are presented for governmental and proprietary activities. These statements present each major fund as a separate column on the fund financial statements.

Governmental Funds:

Governmental funds are those funds through which most governmental functions typically are financed. The measurement focus of governmental funds is on the sources, uses and balance of current financial resources. The City has presented the following major governmental fund:

General Fund:

The General Fund is the main operating fund of the City. This fund is used to account for all financial resources not accounted for in other funds. All general tax revenues and other receipts that are not restricted by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures, fixed charges and capital improvement costs that are not paid through other funds are paid from this fund.

Additionally, the City reports the following governmental fund type:

Debt Service Fund: The Debt Service Fund is used to account for the accumulation of financial resources for the payment of general long-term debt principal, interest, and related costs. The fund balance of the debt service fund is reserved to signify the amounts that are restricted exclusively for debt service.

Proprietary Funds:

Proprietary Funds are accounted for using the economic resources measurement focus and the accrual basis of accounting. The accounting objectives are determinations of net income, financial position and cash flow. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating expenses for the proprietary funds include the cost of personal and contractual services, supplies and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses. All assets and liabilities are included on the Statement of Net Position. The City has presented the following major proprietary fund:

Water and Sewer Fund:

Water and Sewer Fund is used to account for the provision of water and sewer services to the residents of the City. Activities of the fund include administration, operations, and maintenance of the water and sewer system, and billing and collection activities. The fund also accounts for the accumulation of resources for, and the payment of, long-term debt principal and interest for water and sewer debt. All costs are financed through charges to utility customers with rates reviewed regularly and adjusted if necessary to ensure integrity of the funds.

CITY OF HALLSVILLE, TEXAS

NOTES TO THE FINANCIAL STATEMENTS SEPTEMBER 30, 2016

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES: *(Continued)*

Measurement Focus/Basis of Accounting:

Measurement focus refers to what is being measured; basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

The government-wide statements and fund financial statements for proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. The economic resources measurement focus means all assets and liabilities (whether current or noncurrent) are included on the statement of net position and the operating statements present increases (revenues) and decreases (expenses) in net total assets. Under the accrual basis of accounting, revenues are recognized when earned. Expenses are recognized at the time the liability is incurred.

Governmental fund financial statements are reported using the current financial resources measurement focus and are accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual; i.e., when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The City considers revenues to be available if they are collected within 60 days after year-end. Expenditures are recorded when the related fund liability is incurred. However, debt service expenditures are recorded only when payment is due.

The revenues susceptible to accrual that are associated with the current fiscal year are property taxes, franchise fees, licenses, charges for service, interest income, and intergovernmental revenues. All other governmental fund revenues are recognized when received.

Budgetary Control:

The City Mayor submits an annual budget to the City Council and the City Council adopts annual fiscal year budgets for City operating funds (General Fund) and for Proprietary Fund Operations (Water and Sewer Enterprise Fund). Once approved, the City Council may amend the legally adopted budget when unexpected modifications are required in estimated revenues and expenditures. There were several amendments made to the budgets during the year. The City adopted the budgets on a September 30 fiscal year for the 15-16 year.

The Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual - General Fund presents a comparison of budgetary data to actual results for the year ended September 30, 2016. The General Fund utilizes the same basis of accounting for both budgetary purposes and actual results.

As noted in the General Fund, Statement of Revenues, Expenditures, and Changes in Fund Balance-Budget and Actual, General Government expenditures exceeded the budget by the following categories: Garbage Collection Fees by \$247,607; Salaries, Payroll Taxes, Retirement, and Insurance by \$12,930; Insurance by \$190; City Hall and Election by \$3,859; Tax Appraisal and Collection by \$2,804; Street Maintenance by \$17,241, and Capital Outlay by \$333,251. In the future, the City will strive to amend the budget throughout the year to adhere to the budget that is legally adopted.

CITY OF HALLSVILLE, TEXAS

NOTES TO THE FINANCIAL STATEMENTS **SEPTEMBER 30, 2016**

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES: *(Continued)*

The Water and Sewer Fund - Schedule of Revenues, Expenses, and Changes in Net Position - Budget and Actual also presents a comparison of budgetary data to actual results for the year ended.

Interfund Receivables and Payables:

Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

Transactions Between Funds:

Legally authorized transfers are treated as interfund transfers and are included in the results of operations of both Governmental and Proprietary Funds.

Cash and Cash Equivalents:

For purposes of the Statement of Cash Flows, the proprietary fund type considers all highly liquid investments with a maturity of three months or less to be cash equivalents.

Investments:

Investments are stated at cost or amortized cost, which is equivalent to market value.

Restricted Assets:

The assets consist of cash and short-term investments restricted for water and sewer construction and customer meter deposits.

Capital Assets:

Capital assets, which includes property, plant, equipment, and infrastructure, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in the fund financial statements for proprietary funds. All capital assets are valued at historical cost or estimated historical cost if actual historical is not available. Donated assets are valued at their fair market value on the date donated. Repairs and maintenance are recorded as expenses. Renewals and betterments are capitalized.

Depreciation has been calculated on each class of depreciable property using the straight-line method. Estimated useful lives are as follows:

| | |
|-------------------------|-------------|
| Buildings | 20-50 Years |
| Water and Sewer Systems | 50 Years |
| Machinery and Equipment | 5-10 Years |
| Improvements | 20 Years |
| Infrastructure | 20-40 Years |

Bond Issuance Costs:

Bond issuance costs in governmental funds and enterprise funds are expensed in the year that the bonds are issued.

CITY OF HALLSVILLE, TEXAS

NOTES TO THE FINANCIAL STATEMENTS SEPTEMBER 30, 2016

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES: *(Continued)*

Revenue Recognition - Property Taxes:

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and are due and payable at that time. All unpaid taxes levied October 1 become delinquent July 1 of the following year.

Property tax revenues are recognized when they become available. Available includes those property tax receivables expected to be collected within sixty days after year-end. Delinquent taxes are recorded as unavailable revenue - property taxes, unless collected within sixty days after year-end.

Net Position:

Net Position represents the residual of assets plus deferred outflows less liabilities plus deferred inflows. Net position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets, and adding back unspent proceeds. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislations adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

In the governmental funds financial statements, fund balances are classified into various categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

Nonspendable fund balance - amounts that are not in a spendable form (such as inventory) or are required to be maintained intact;

Restricted fund balance - amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;

Committed fund balance - amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest level action to remove or change the constraint;

Assigned fund balance - amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority;

Unassigned fund balance - amounts that are available for any purpose; positive amounts are reported only in the General Fund.

CITY OF HALLSVILLE, TEXAS

NOTES TO THE FINANCIAL STATEMENTS SEPTEMBER 30, 2016

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES: *(Continued)*

The Council shall approve all commitments by formal action. The action to commit funds must occur prior to fiscal year-end in order to report such commitments in the balance sheet of the respective period, even though the amount may be determined subsequent to fiscal year-end. A commitment can only be modified or removed by the same formal action.

When it is appropriate for fund balance to be assigned, the Council delegates the responsibility to assign funds to the Mayor or his designee. Assignments may occur subsequent to fiscal year-end.

The Council will utilize the funds in the following order:

- Restricted
- Committed
- Assigned
- Unassigned

Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2 - DEPOSITS AND INVESTMENTS:

Legal and Contractual Provisions Governing Deposits and Investments

The **Public Funds Investment Act** (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the City to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit. Statutes authorize the City to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas; (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) Mutual Funds, (8) Investment pools, (9) guaranteed investment contracts, (10) and common trust funds. The Act also requires the City to have independent auditors perform test procedures related to investment practices as provided by the Act. The City is in substantial compliance with the requirements of the Act and with local policies.

Policies Governing Deposits and Investments

In compliance with the Public Funds Investment Act, the City has adopted a deposit and investment policy. That policy does address the following risks:

CITY OF HALLSVILLE, TEXAS

NOTES TO THE FINANCIAL STATEMENTS SEPTEMBER 30, 2016

NOTE 2 - DEPOSITS AND INVESTMENTS: *(Continued)*

1. Custodial Credit Risk For Deposits - In the case of deposits, this is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The City's policy regarding types of deposits allowed and collateral requirements is:

The depository bank places approved pledged securities for safekeeping and trust with the City's agent bank in an amount sufficient to protect City funds on a day-to-day basis. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

The City is exposed to custodial credit risk for its deposits as follows:

At September 30, 2016, the carrying amount of the City's deposits (cash, petty cash, interest-bearing checking accounts, non-interest bearing checking accounts, money market accounts, and certificates of deposit) was \$4,373,394 and the bank balances were \$4,703,662. The City's cash deposits at September 30, 2016, and during the year were entirely covered by FDIC insurance or by pledged collateral held by the pledging financial institution's agent in the City's name. The certificates of deposit total \$517,359 and are classified as current investments for report purposes. The certificates of deposit mature within a year.

At September 30, 2016, the City had \$505,287 of deposits, which were fully insured by the FDIC. The remaining deposit balances at the bank totaled \$4,198,375 and were collateralized with securities held by the pledging financial institution's trust department or agent in the City's name.

2. Custodial Credit Risk For Investments - This is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

At September 30, 2016, the City was not exposed to custodial credit risk. The City only had investments in certificates of deposit, which are included in cash custodial credit risk as mention above.

3. Interest Rate Risk - Interest rate risk occurs when potential purchasers of debt securities do not agree to pay face value for those securities if interest rates rise.

According to City policy, investments shall be made in a manner which will provide the maximum security of principal invested through limitations and diversification while meeting the daily cash flows of the City and conforming to all applicable state and City statues governing the investment of public funds. The receipt of a market rate of return will be secondary to the requirements for safety and liquidity. The City was not subject to interest rate risk during the year ended September 30, 2016. As mentioned previously, the City had investments in certificates of deposit.

4. Credit Risk and Concentration Risk - The City's main goal of their investment program is to ensure its safety and maximize financial returns within current market conditions in accordance with policy. The City's investment policy states that diversification strategies shall be established and periodically reviewed. At a minimum, diversification standards by security type and issuer shall be:

CITY OF HALLSVILLE, TEXAS

NOTES TO THE FINANCIAL STATEMENTS SEPTEMBER 30, 2016

NOTE 2 - DEPOSITS AND INVESTMENTS: (Continued)

| | |
|---|-------------------|
| U.S. Treasuries and securities with the U.S. Government's guarantee | 100% |
| U.S. Government agencies and instrumentalities | not to exceed 50% |
| Fully insured or collateralized CD's | 100% |
| Money Market Funds | |
| Operating Funds | not to exceed 50% |
| Bond Funds | 80% |
| Local Government Investment Pools (Constant dollar) | 100% |

The Investment Officer shall be required to diversify maturities. The Investment Officer, to the extent possible, will attempt to match investment with anticipated cash flow requirements. Matching maturities with cash flow dates will reduce the need to sell securities prior to maturity, thus reducing market risk. Unless matched to a specific requirement, the Investment Officer may not invest more than 20% of the portfolio for a period greater than one (1) year. Unless matched to a specific requirement, the Investment Officer may not invest any portion of the portfolio for a period greater than one (1) year.

5. Foreign Currency Risk - This is the risk that exchange rates will adversely affect the fair value of an investment. At year-end and during the year, the City was not exposed to foreign currency risk.

Time certificates of deposit include restricted, assigned, and unrestricted investments. Time certificates of deposit of the various funds at September 30, 2016 in the amount of \$517,359 are detailed as follows:

| Total Depreciation Expense - Business-Type Activities | <u>281,113</u> |

NOTE 5 - BONDS PAYABLE - WATER & SEWER ENTERPRISE FUND:

On February 18, 2014, the City issued \$2,865,000 General Obligation Refunding Bonds, Series 2014, to refund a portion of the City of Hallsville, Texas, Tax and Waterworks and Sewer System Revenue Certificates of Obligations, Series 2008, and the City of Hallsville Waterworks and Sewer System Subordinate Lien Revenue Bonds, Series 1998. \$1,117,350 of the proceeds (39%) of issuance are to be used for the purpose of refunding the 2014 through 2019 maturities of the City's currently outstanding Waterworks and Sewer System Subordinate Lien Revenue Bonds, Series 1998. This portion of the proceeds is accounted for in the Water and Sewer Fund. The remaining \$1,747,650 (61%) of the Refunding Bonds is being used to refund the Tax and Waterworks and Sewer System (Limited Pledge) Revenue Certificates of Obligation, Series 2008, that is accounted for in the governmental activities. (See Note 6) The General Obligation Bonds are secured by the City's limited ad valorem tax levy.

The proceeds from the refunded existing bond maturities and interest thereon were placed with an escrow agent. The escrowed funds, together with investment earnings thereon, will be sufficient to discharge the Refunded Bonds. Under the escrow agreement, the Escrow Fund is irrevocably pledged to the payment of principal and interest of the Refunding Bonds. Accordingly, pursuant to the terms of the ordinance authorizing the issuance of the refunded bonds and in accordance with Texas Law, the refunded bonds are deemed to be no longer outstanding obligations payable from the General Obligation Debt Service or for any other purpose except for the purpose of being paid from the funds held in such Escrow Fund. On September 30, 2016, \$2,070,000 of the bonds considered defeased are still outstanding.

The City also issued \$5,050,000 Combination Tax and Revenue Certificates of Obligation, Series 2014, to fund water and sewer infrastructure improvements. The Certificates of Obligation are secured by the same ad valorem tax levy in addition to surplus water and sewer revenue.

SEPTEMBER 30, 2016

NOTE 6 - BONDS AND LOANS PAYABLE - GOVERNMENTAL ACTIVITIES: *(Continued)*

Loans Payable:

On August 7, 2013, the City entered into a loan agreement with Texas Bank and Trust for the purchase of police vehicles for \$183,197 at 1.995%. The loan is secured by the vehicles and is payable in 62 installments of which the first two payments are interest only; and then there are 58 payments including principal and interest in the amount of \$3,210; and one final payment of principal balance and accrued interest that will be due at maturity.

On August 4, 2016, the City entered into a loan agreement with Texas Bank and Trust for street repairs and improvements for a maximum amount of \$300,000 at 2.480%. The loan is secured by various City equipment. The loan is an interest only draw period for the first 6 months of the loan with interest due based on the loan balance at the end of each month. Once improvements and repairs are completed, the loan is interest only for the next 6 months with a balloon at the end of the one year term. At September 30, 2016, the City had drawn down \$249,936.

These loans are reflected in the Statement of Net Position in governmental activities, and current requirements for principal and interest expenditures are accounted for in the General Fund.

The following is a summary of the City's loan transactions for the year ended September 30, 2016:

| | <u>2016</u> |
|---------------------------------|-----------------------|
| Balance - Beginning of Year | 115,751 |
| Current Year Addition | 249,936 |
| Current Year Principal Payments | <u>(37,201)</u> |
| BALANCE, END OF YEAR | <u>328,486</u> |

Debt service requirements are as follows:

CITY OF HALLSVILLE, TEXAS

NOTES TO THE FINANCIAL STATEMENTS **SEPTEMBER 30, 2016**

NOTE 10 - PENSION PLAN:

Texas Municipal Retirement System –

TMRS Plan Description:

The City of Hallsville participates as one of 866 plans in the nontraditional, joint contributory, hybrid defined benefit pension plan administered by the Texas Municipal Retirement System (TMRS). TMRS is an agency created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agent multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the System with a six-member Board of Trustees. Although the Governor, with the advice and consent of the Senate, appoints the Board, TMRS is not fiscally dependent on the State of Texas. TMRS's defined benefit pension plan is a tax-qualified plan under Section 401(a) of the Internal Revenue Code. TMRS issues a publicly available comprehensive annual financial report (CAFR) that can be obtained at www.tmrs.com.

All eligible employees of the City are required to participate in TMRS.

Benefits Provided:

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS.

At retirement, the benefit is calculated as if the sum of the employee's contributions, with interest, and the city-financed monetary credits with interest were used to purchase an annuity. Members may choose to receive their benefit as a Partial Lump Sum Distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the member's deposits and interest.

The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS. Plan provisions for the City were as follows:

| | <u>Plan Year 2015</u> | <u>Plan Year 2014</u> |
|-----------------------------------|---|---|
| Employee deposit rate | 5% | 5% |
| Matching ratio (City to employee) | 1 to 1 | 1 to 1 |
| Years required for vesting | 20 years at any age, 5 years at age 60 and above | 20 years at any age, 5 years at age 60 and above |
| Updated service credit | 0 Repeating, Transfers | 0 Repeating, Transfers |
| Annuity increase (to retirees) | 0 of CPI Repeating | 0 of CPI Repeating |

CITY OF HALLSVILLE, TEXAS

NOTES TO THE FINANCIAL STATEMENTS ***SEPTEMBER 30, 2016***

NOTE 10 - PENSION PLAN: *(Continued)*

Employees Covered by Benefit Terms:

At the December 31, 2015, valuation and measurement date, the following employees were covered by the benefit terms:

| | <u>12/31/2015</u> | <u>12/31/2014</u> |
|--|-------------------|-------------------|
| Inactive employees or beneficiaries currently receiving benefits | 4 | 4 |
| Inactive employees entitled to but not yet receiving benefits | 14 | 16 |
| Active employees | <u>16</u> | <u>16</u> |
| | <u>34</u> | <u>36</u> |

Contributions:

The contribution rates for employees in TMRS are either 5%, 6%, or 7% of employee gross earnings, and the city matching percentages are either 100%, 150%, or 200%, both as adopted by the governing body of the City. Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Employees for the City of Hallsville were required to contribute 5% of their annual gross earnings during the fiscal year. The contribution rates for the City of Hallsville were 3.27% and 3.10% in calendar years 2015 and 2016, respectively. The City's contributions to TMRS for the year ended September 30, 2016, were \$20,954, and satisfied the required contributions.

Net Pension Liability:

The City's Net Pension Liability (NPL) was measured as of December 31, 2015, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date.

Actuarial assumptions:

The Total Pension Liability in the December 31, 2015, actuarial valuation was determined using the following actuarial assumptions:

- Inflation at 2.50% per year
- Overall payroll growth at 3.0% per year
- Investment Rate of Return at 6.75%, net of pension plan investment expense, including inflation

Salary increases were based on a service-related table. Mortality rates for active members, retirees, and beneficiaries were based on the gender-distinct RP2000 Combined Healthy Mortality Tables, with Blue Collar Adjustment, with male rates multiplied by 109% and female rates multiplied by 103%. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements. For disabled annuitants, the gender-distinct RP2000 Combined Healthy Mortality Tables with Blue Collar Adjustment are used with males rates multiplied by 109% and female rates multiplied by 103% with a 3-year set-forward for both males and females. In addition, a 3% minimum mortality rate is applied to reflect the impairment for younger members who become disabled. The rates are projected on fully generational basis by scale BB to account for future mortality improvements subject to the 3% floor.

CITY OF HALLSVILLE, TEXAS

NOTES TO THE FINANCIAL STATEMENTS SEPTEMBER 30, 2016

NOTE 10 - PENSION PLAN: *(Continued)*

Net Pension Liability: *(Continued)*

Actuarial assumptions used in the December 2015, valuation were based on the results of actuarial experience studies. The experience study in TMRS was for the period December 31, 2010 through December 31, 2014. Healthy post-retirement mortality rates and annuity purchase rates were updated based on a Mortality Experience Investigation Study covering 2009 through 2011, and dated December 31, 2013. These assumptions were first used in the December 31, 2013, valuation, along with a change to the Entry Age Normal (EAN) actuarial cost method. Assumptions are reviewed annually. No additional changes were made for the 2014 valuation. After the Asset Allocation Study analysis and experience investigation study, the Board amended the long-term expected rate of return on pension plan investments from 7% to 6.75%. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income, in order to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. In determining their best estimate of a recommended investment return assumption under the various alternative asset allocation portfolios, GRS focused on the area between (1) arithmetic mean (aggressive) without an adjustment for time (conservative) and (2) the geometric mean (conservative) with an adjustment for time (aggressive). At its meeting on July 30, 2015, the TMRS Board approved a new portfolio target allocation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

| <u>Asset Class</u> | <u>Target Allocation</u> | <u>Long-term Expected Real Rate of Return</u> |
|---------------------------|---------------------------------|--|
| Domestic Equity | 17.5% | 4.55% |
| International Equity | 17.5% | 6.10% |
| Core Fixed Income | 10.0% | 1.00% |
| Non-Core Fixed Income | 20.0% | 3.65% |
| Real Return | 10.0% | 4.03% |
| Real Estate | 10.0% | 5.00% |
| Absolute Return | 10.0% | 4.00% |
| Private Equity | 5.0% | 8.00% |
| | <u>100.0%</u> | |

Discount Rate:

The discount rate used to measure the Total Pension Liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

CITY OF HALLSVILLE, TEXAS

NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

NOTE 10 - PENSION PLAN: *(Continued)*

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions:

For the year ended September 30, 2016, the City recognized pension expense of \$21,315.

At September 30, 2016, the City reported deferred outflows of resource and deferred inflows of resources related to pensions from the following sources:

| | <u>Deferred Outflow of Resources</u> | <u>Deferred Inflow of Resources</u> |
|---|---|--|
| Differences between expected and actual economic experience | - | 1,733 |
| Contributions paid to TMRS subsequent to the measurement date | 20,954 | - |
| Differences between projected and actual investment earnings | <u>5,769</u> | <u>-</u> |
| Total | <u>26,723</u> | <u>1,733</u> |

\$20,954 reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ending September 30, 2016.

Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

| | <u>Net Deferred Outflows (Inflows) of Resources</u> |
|--------------|--|
| 2017 | 3,885 |
| 2018 | 4,357 |

CITY OF HALLSVILLE, TEXAS

NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2016

NOTE 11 - SUPPLEMENTAL DEATH BENEFITS:

The City also participates in the cost-sharing multiple-employer defined benefit group-term life insurance plan operated by the Texas Municipal Retirement System (TMRS) known as the Supplemental Death Benefits Fund (SDBF). The City elected, by ordinance, to provide group-term life insurance coverage to both current and retired employees. The City may terminate coverage under and discontinue participation in the SDBF by adopting an ordinance before November 1 of any year to be effective the following January 1.

The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary (calculated based on the employee's actual earnings, for the 12-month period preceding the month of death); retired employees are insured for \$7,500; this coverage is an "other postemployment benefit" or OPEB.

The City contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year; the intent is not to pre-fund retiree term life insurance during employees' entire careers.

The City's contributions to the TMRS SDBF for the periods ended September 30, 2014 - 2016, are shown below:

| Schedule of Contribution Rates | | | |
|---|--|--|---|
| (Retiree-only portion of the rate) | | | |
| Plan/ Calendar Year | Annual Required Contribution Rate | Actual Contribution Made Rate | Percent of ARC Contributed |
| 2014 | 0.02% | 0.02% | 100.0% |
| 2015 | 0.03% | 0.03% | 100.0% |
| 2016 | 0.04% | 0.04% | 100.0% |

NOTE 12 - CONTINGENT LIABILITIES:

The City participates in Federally assisted grant programs. These programs are subject to audits by the grantors or their representatives. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although such amounts, if any, are expected to be immaterial.

NOTE 13 - LITIGATION:

The City is party to various legal proceedings which normally occur in governmental operations. In the opinion of City Management, none of these would have a material or adverse impact on the Financial Statements.

CITY OF HALLSVILLE, TEXAS

***NOTES TO THE FINANCIAL STATEMENTS
SEPTEMBER 30, 2016***

NOTE 14 - COMMITMENTS:

The City has entered into various contracts for improvements and extensions to the sewer system, water supply and treatment facilities. Funds for these contracts will be provided by the bond issue.

NOTE 15 - SUBSEQUENT EVENTS:

The City has evaluated subsequent events through February 7, 2017, the date which the financial statements were available for issue.
